

## 1700 years of the Council of Nicaea 2025

I believe in God the Father Almighty, the Source of all things, the Point Alpha that exists before all time and beyond space and time. He is the Creator of the visible and invisible worlds, who in his infinite omnipotence unites all versions and events in their diversity and unity and carries within himself the entire creation in form and substance.

I believe in the Son, the Omega Point, who is begotten and not created and is inseparable from the Father. This Omega Point, which exists after all time and outside of space and time, reveals itself in the Incarnation as Jesus Christ. Through his birth, his life, his suffering, his death and his resurrection he is the perfect truth and omniscience and through his life he has accomplished our salvation.

I believe in the Spirit, the presence of all probable versions of the world, which the Lord is and gives life to. The Spirit proceeds from the Father and the Son and is one with them. It permeates the world and works through the community of believers and in the holy, universal and catholic Church, sent by God and apostolically founded.

The Omega Point will return to raise the living and the dead, on a new earth under a new sky in transfigured bodies. I await the resurrection of the dead and eternal life, as part of the general, Catholic and apostolic community.
